3D Systems Joins With Autodesk To Democratize Personal Manufacturing

- New 3D Content-To-Print Partnership Empowers Makers -

ROCK HILL, South Carolina – May 19, 2011 – 3D Systems Corporation (NASDAQ: TDSC) announced today that it is supporting [Autodesk](#), a leader in 3D design, engineering and entertainment software, in an exciting new initiative to empower makers to bring their ideas to reality.

To complement its free* Autodesk 123D design application for makers that is currently in public beta, Autodesk has launched its [Autodesk 123D](#) web site, a destination for the maker community to create, print and share their unique designs. 3D Systems supports the Autodesk 123D site with [on-demand 3D print services](#) and [personal 3D printers](#) and [Kits](#) starting at \$1,300 USD.

“We are excited to partner with Autodesk to deliver personal fabrication to this growing community of makers and creators” said Cathy Lewis, Vice President Global Marketing, 3D Systems. “This alliance is another step in our commitment to democratize access and accelerate adoption of affordable, easy to use 3D content-to-print solutions for makers and consumers alike.”

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials, creative printable content development, curation and downloads and on-demand custom parts services for professionals and consumers alike. Its expertly

integrated rapid prototyping and manufacturing solutions reduce the time and cost of designing new products and printing real parts directly from digital input. These solutions are used to design, communicate, prototype and produce functional end-use parts empowering our customers to create with confidence.
