## 3D Systems Teams Up with Vision Engineering & Prototype, Inc.

- Experienced Product Development Services Provider Adds Leading  
3D Printers To Its Portfolio of Solutions -

**ROCK HILL, South Carolina, July 6, 2010** – 3D Systems (NASDAQ: TDSC), today announced that it has added Vision Engineering & Prototype, Inc. a recognized, successful product development and prototyping services source to its growing network of 3D printers and solutions providers.

With a qualified team of experienced professionals, Vision Engineering & Prototype, Inc. specializes in Product Development and Rapid Prototyping services. They offer 3D Design Modeling, Reverse Engineering, and the conversion of 2D drawings to 3D models. Their Rapid Prototyping shop also offers services and solutions to prototyping needs. Based upon this experience Vision is well positioned to provide local access to the entire lineup of [3D Systems](#) personal, professional and production 3D Printers throughout Tennessee, Arkansas and Mississippi.

“We are very pleased to add a professional service provider with the extensive background of Vision Engineering & Prototyping, Inc. to our network. We believe that the Vision team is uniquely qualified and very capable of representing our comprehensive range of Personal, Professional and Production [3D Printers](#),” said Michele Marchesan, vice president sales 3D Printing, 3D Systems Corporation.

3D Systems authorized channel partners sell and service the company’s growing line of personal, professional and production class 3D printers. As an added benefit of

representing 3D Systems, resellers also sell [3DProparts™](#), the most comprehensive parts service on the market today.

### **Forward-Looking Statements**

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or that include terms such as “believes,” “belief,” “expects,” “estimates,” “intends,” “anticipates” or “plans” to be uncertain and forward-looking. Forward-looking statements may include comments as to the company’s beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings “Forward-Looking Statements,” “Cautionary Statements and Risk Factors,” and “Risk Factors” in the company’s periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements.

### **About 3D Systems Corporation**

3D Systems is a leading provider of 3-D Printing, Rapid Prototyping and Manufacturing systems and parts solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: Our customers Create With Confidence.
