3D Systems And TPM Join Forces

- Experienced Multi-line VAR Adds Leading 3D Printers To Its Portfolio -

ROCK HILL, South Carolina, July 15, 2010 – 3D Systems (NASDAQ: TDSC), today announced that it added TPM, Inc., a recognized, successful multi-line Value Added Reseller (VAR) to its growing network of 3D printers and solutions providers.

With a qualified team of experienced professionals, TPM delivers comprehensive sales, support and industry-leading training for a variety of products and solutions to Architects, Engineers, Design Professionals and Graphic Artists. This relationship with TPM offers local access to the entire lineup of 3D Systems' personal, professional and production 3D printers across the Carolina's and Georgia.

"We are pleased to add a professional partner the caliber of TPM to our reseller network. The TPM team is uniquely qualified to represent our comprehensive range of Personal, Professional and Production 3D Printers," said Michele Marchesan, vice president sales 3D Printing, 3D Systems Corporation.

"We are excited to add the leading 3D Printers brand to our comprehensive suite of design solutions. Now our Manufacturing and Architectural clients can have the choice of a 3D Printer that fits their budget without sacrificing part quality," said Paul McIntyre, mechanical sales manager, TPM, Inc.

3D Systems authorized channel partners sell and service the company's growing line of personal, professional and production class 3D printers.

Forward-Looking Statements

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or that include terms such as "believes," "belief," "expects," "estimates," "intends," "anticipates" or "plans" to be uncertain and forward-looking. Forward-looking statements may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-Looking Statements," "Cautionary Statements and Risk Factors," and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements.

About 3D Systems Corporation

3D Systems is a leading provider of 3-D Printing, Rapid Prototyping and Manufacturing systems and parts solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: Our customers Create With Confidence.
