## 3D Systems Launches New High Definition Small Parts Service Online

- 3Dproparts™ Installs Five Viper™ SLA® Systems -

**ROCK HILL, South Carolina – August 17, 2010** - 3D Systems (NASDAQ: TDSC) - announced today the immediate availability of a new High Definition Fine Detail Small Parts Service from its 3Dproparts™ network. To facilitate best-in-class quality parts and quick turnaround, the company has completed the installation of five Viper™ SLA® Systems throughout its growing network. Considered to be the industry gold standard for resolution and fine detail SLA® parts, 3Dproparts™ configured its fleet of new Vipers for ultra high definition 24/7 part production. The company already offers a High Definition Fine Detail Large Parts Service that is supported by twelve iPro™ SLA® Production Systems and the widest range of high performance SLA® materials to meet its customers demanding precision and accuracy requirements.

Since launching its 3Dproparts™ service, [www.3Dproparts.com](http://www.3Dproparts.com), last October, 3D Systems has moved quickly to expand its capabilities and geographical coverage. “We are pleased to respond rapidly to our customers call for this [High Definition Fine Detail Small Parts Service](#) and to quickly add significant capacity to support the growth of our 3Dproparts™ business,” said Cathy Lewis, vice president global marketing, 3D Systems. “The installation of 5 new [Viper™ SLA® Systems](#) across the network expands our menu of available services and enhances our response time for the benefit of our growing customer base.”

The company plans to continue the expansion of its 3Dproparts™ service offerings domestically and internationally through organic growth, deployment of new technologies and strategic acquisitions.

## **Forward-Looking Statements**

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or that include terms such as "believes," "belief," "expects," "estimates," "intends," "anticipates" or "plans" to be uncertain and forward-looking. Forward-looking statements may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-Looking Statements," "Cautionary Statements and Risk Factors," and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements.

## **About 3D Systems Corporation**

3D Systems is a leading provider of 3D Printers, 3D Manufacturing Centers and 3Dproparts™ solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: Our customers Create With Confidence.
