## 3D Systems Launches Cubify Bracelets

-Make It Matter With Custom 3D Printed Bracelets

**ROCK HILL, South Carolina –August 27, 2012** – [3D Systems Corporation](#)

(NYSE:DDD) announced today the immediate availability of Cubify® Bracelets another personalization app designed specifically for printing on its [Cube® 3D printer](#). Cubify Bracelets makes it possible for anyone to create and 3D print their own individualized bangles at home.

Designed to be stylish, chunky and colorful, [Cubify Bracelets](#) come in three sizes and sixteen styles so kids and adults alike can enjoy customizing and accessorizing. Adding a whole new meaning to friendship jewelry, now everyone can create secret messages or place their name on the inside or outside of the bracelet along with special characters and symbols.

“Cubify Bracelets is another fun and playful app that unleashes everyone’s creativity to instantly make and print custom jewelry that expresses their personality and style,” said Cathy Lewis, Vice President of Global Marketing for 3D Systems. “With every new app, our rapidly expanding Cubify community gets to celebrate their creativity and share their amazing tags, rings, bracelets and earrings with their friends and family.”

Be the first to register and start making your custom bangles on [Cubify](#) today.

### **About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides CAD software and plugins, and affordable consumer

create-and-make printers, apps and services. Its expertly integrated solutions replace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, create, communicate, prototype or produce real parts, empowering customers to create and make with confidence.

More information on the company is available at [www.3DSystems.com](http://www.3DSystems.com).
