3D Systems Launches Next Gen ProJet 3D Printers

- Next Gen ProJet 3500 HDMax And ProJet 3500 CPXMax
- Expanded Print Envelope And Higher Throughput
- Onboard Tablet Controls And Remote Tablet Access

ROCK HILL, South Carolina, November 26, 2012 – [3D Systems](#) (NYSE:DDD) announced today the immediate availability of its next generation [ProJet® 3500 HDMax](#) and [CPXMax](#) professional series 3D printers with greater productivity, larger high definition prints and remote tablet controls for the production of functional plastic parts and investment casting wax patterns for product design and manufacturing applications. These new ProJet printers are on display November 27-30, 2012 at EuroMold, Messe Frankfurt, Germany in Hall 11 stand D48.

[ProJet 3500 Max](#) printers incorporate 3D Systems' latest patented Multi-Jet Modeling (MJM) print technology, including its production-grade printhead, advanced material management, full platform high definition printing, tablet-like touchscreen controls, and remote tablet and smartphone connectivity. ProJet 3500 Max printers are compatible with 3D Systems' extensive range of [VisiJet® print materials](#) that cover the widest array of customer applications including high-impact, high temperature resistant durable plastic for functional testing, cast-friendly wax for rapid-foundry production, and specialized materials for the manufacturing of jewelry and personalized medical devices. ProJet® 3500 is the only printer on the market that comes with a five-year printhead warranty that saves thousands of dollars in annual customer operating costs compared to other alternatives.

"3D Systems next generation [ProJet 3500 Max](#) printers are the best yet," said Buddy Byrum, Vice President of Product & Channel Management for 3D Systems. "We are

excited to extend our print envelope for high resolution prints resulting in increased throughput and part size with feature detail and quality that is only possible with ProJet printers .”

3D Systems’ new ProJet 3500 Max series, together with its expanded range of affordable ProJet printers and ZPrinters® are sold and serviced through its global network of Authorized Reseller Partners. Contact your local reseller or visit www.3DSystems.com to locate your nearest dealer and to explore all the 3D printers and solutions available from 3D Systems.

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides CAD, reverse engineering and inspection software tools and consumer 3D printers, apps and services. Its expertly integrated solutions replace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, create, communicate, prototype or produce real parts, empowering customers to create and make with confidence.
