## 3D Systems Adds Potomac Photonics To Its Reseller Network

- Micro Manufacturer Brings Leading 3D Printers To Its Users -

**ROCK HILL, South Carolina, December 21, 2011** – 3D Systems Corporation (NYSE:DDD) announced today the appointment of Potomac Photonics, a leader in Micro Manufacturing, as an authorized channel partner. With a qualified team of experienced sales engineers and support professionals, Potomac Photonics offers their users immediate access to the entire lineup of [3D Systems'](#) high resolution personal and professional [3D printers](#).

"We are delighted to add Potomac Photonics, an experienced and proven services and sales channel partner, to our growing network of professional 3D content-to-print solutions resellers," said Michele Marchesan, Vice President and General Manager, 3D Printing for 3D Systems. "The Potomac Photonics team is highly qualified to deliver our 3D printing products to their growing customer base."

"We are very pleased to represent 3D Systems' comprehensive design to manufacturing solutions," stated Mike Adelstein, President of Potomac Photonics. "Their 3D content-to-print products and services, coupled with our laser and micro-CNC processes, will provide our customers with a broad-range of rapid manufacturing solutions."

## **About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.
